

Contents of Mentoring Module Suggested Components for 1-2-3 Hour Presentations

The following grid suggests content that might be most appropriate for a one-, two-, or three-hour presentation. These are suggestions only. It is difficult to guess how many components can be included comfortably in the established time frame given the variables such as questions from the audience, discussion time, etc. The presenter will want to choose components based on his or her audience and goal(s) for the workshop. The ultimate choice is up to the presenter.

Hours			Components
1	2	3
